Operating System Errors

NUMBERS 1 TO 9

NUMBER	DESCRIPTION	
1	Disk Full	
2	Disk Directory Full	
4	Seek to Unwritten Extent (O/S Error)	
5	Directory Overflow (Disk Full)	
6	Seek Past End of Disk (Disk Full)	
7	Too Many Locks, Use File Mode Read Only	
8	Read error on .VLD File	
9	Write error on .VLD File	

DataFlex Status

NUMBERS 10 TO 100

NUMBER	DESCRIPTION	
10*	+++ Out of Memory +++	
11	Number Too Large for Filed Allocation	
12	Window Number Out of Range	
13	An entry is required on this window	
14	Please enter a number	
15	Invalid entry for this window	
16	Please enter a valid date (MM/DD/YY)	
17	Numeric entry is out of range	
18*	Can't open system communication file	
19	Multi user time out (Busy too long)	
20*	Read Error on Index Files	
21*	Write Error on Index File	
22*	Index File Damaged, Reindex File	
23	Index file full, exceeds defined size	
24	Can't CHAIN while locks in effect	
25	Record not found	
26	Can't Close Index File	
27	File Location out of Range	
28	Duplicate Records not Allowed in File	
29	Text field Too Long	
30	Can't Read Configuration File	
31*	Program File Not Found	
32	Can't Open output file	
33	Can't Open input file	
34*	Not a Valid Dataflex Program	
35	Program must be converted	
36	Out of memory for windows and resident images	
37	Error Reading Virtual Memory File	
38	Error reading .FLX file	

DataFlex Error Code Listing

39	Error in system flush file	
40	Invalid accelerator key	
41	Find prior to beginning of file	
42	Find past end of file	
43*	Can't Open Index File	
44	Channel number out of bounds	
45	Illegal operation on device	
46	Graphics mode not initialized	
47	Bad or missing graphics driver	
48	Graphic commands not allowed	
49	Demo version limitation exceeded	
50	Internal Expression Error	
51	Bad Format in Expression (Operand)	
52	Bad Format of Expression(Operand)	
53	Unsupported function for this O/S	
54	Invalid Symbol in Expression	
55	Invalid Data Type in Expression	
56	Attempt to Run Uncompiled Expression	
57	Out of Expression Stack Space	
58	More than 25 (parentheses) in expression	
59	Floating Point Exception Error	
60	Bad or missing .DEF file	
61	Illegal redefinition of existing file	
62	TAG File Error	
63	Attempt to delete a protected record	
64	Attempt to find a protected record	
65	Attempt to create in a protected file	
66	Attempt to edit a protected record	
67	Array too large	
68	Can't create item	
69	Unresolved object reference	
70	Not a current data file	
71	No record in memory to delete	
72*	File Not Open	

DataFlex Error Code Listing

73	Field number out of range	
74*	Can't open FILELIST.CFG	
75*	Can't Open Data File (.dat)	
76	Internal Huffman error	
77	Field Number Out of Range	
78*	Can't update record zero of data file	
79	File not indexed, Can't find by this	
80*	Can't Close Data File	
81	Record Number Out of Range	
82	Edited Record not Saved	
83	Type Check Error, ASCII Used as Numeric	
84	Field Outside Record	
85	Can't open .VLD file	
86	Related fields are not the same length	
87	No superfind path to this record	
88	Invalid file name	
89	Infinite recursion	
90	Please enter a valid record ID	
91	Attempt to put into integer constant	
92	Program File Not Found	
93	Duplicate command line number	
94	Program Line Number Out of Range	
95	Argument type not legal in entry command	
96	Can't open program file	
97	Multiple gosubs without return	
98	Invalid message	
99	Wrong Revision	
100	Operator error	

DataFlex Run Time Status**NUMBERS 4000 TO 4999**

NUMBER	DESCRIPTION	
4097	Bad attribute value	
4098	Bad relationship	
4099	Bad parameter	
4100	Cannot find field	
4101	String too long	
4102	Too many file structures	
4103	Bad driver name	
4104	Already started	
4105	Bad file number	
4106	Lock timeout	
4107	Too many indexes	
4108	Record too long	
4109	Data dictionary record not saved	
4110	Structure not started	
4111	Cannot open file exclusively	
4112	Temporary file number in use	
4113	Attribute value warning	
4114	Cannot create .VLD file	
4115	Cannot create .DAT file	
4116	Read error	
4117	Write error	
4118	Cannot delete file	
4119	File not found	
4120	Cannot rename file	
4121	Operation aborted	
4122	Bad field type in index	
4123	Dynamic area of data file header damaged	
4124	Static area of data file header damaged	
4125	Argument size to large	
4126	Argument size to small	

DataFlex Error Code Listing

4127	Error writing to device	
4128	Maximum records less than total records	
4129	Invalid number for maximum records	
4130	Error number out of range	
4131	Command subsystem not compatible	
4133	Data entry subsystem not compatible	
4134	Data file not compatible	
4135	Number too large to convert to integer	
4136	Real too large to convert to integer	
4137	Can't find file to pack	
4138	Maximum number of objects reached	
4139	Cannot delete – related files not open	
4140	Cannot delete – related records exist	
4141	Data-set files must support transactions	
4142	Cannot recover from transaction error	
4143	Illegal operation during transaction	
4144	Operation not allowed	
4145	Fatal Internal Error	
4146	RECNUM not allowed as sequential device	
4147	Can't read .HDR file	
4148	Can't write .HDR file	
4149	.HDR file is damaged or invalid	
4150	Attempt to reference invalid item number	
4151	Attempt to access an invalid page number	
4152	Maximum virtual memory locks exceeded	
4153	Attempt to unlock invalid virtual memory	
4154	Dataset constraint not for main file	
4155	Edit requires reread or find during lock	
4156	Referenced an invalid system integer	
4157	No Shell program defined in environment	
4158	Can't fork child process	
4159	Error executing child process	
4160	Can't run print spooler	
4161	Invalid file system	

DataFlex Error Code Listing

4162	Bad SYSCONF parameters	
4163	Spooler command line string too long	
4164	Referenced an invalid system indicator	
4165	Error outputting to spooler device	
4166	Error reading from child process's pipe	
4167	Unable to open pipe	
4168	Invalid object used with RUNPROGRAM PIPE	
4169	Operation not supported by OS	
4170	Compression table is corrupt	
4171	Invalid directive in collate.cfg on line	
4172	Redundant value in collate.cfg on line	
4173	Can't open collate.cfg	
4174	Incomplete sequence in collate.cfg	
4175	No printer type specified	
4176	Invalid datafile size	
4177	File access violation, file may be in use	
4178	User already logged in	
4179	Unable to update FILELIST.CFG	
4180	Can't read record zero	
4181	Can't delete index file (.K*)	
4182	Can't create Index file (.K*)	
4183	Can't delete data file (.DAT)	
4184	Can't delete Variable data file (.VLD)	
4185	Can't delete record	
4186	Too many file open on server	
4187	Can't open administration file	
4188	Can't close administration file	
4189	Can't find user account	
4190	No more groups defined	
4191	Can't add user to server	
4192	User already exists	
4193	No more users defined	
4194	Can't find group	
4195	Group already exists	

DataFlex Error Code Listing

4196	Can't add group to server	
4197	Can't add user to group	
4198	User already in group	
4199	Too many groups for this user	
4200	Can't close Variable data file (.VLD)	
4201	User not in group	
4202	Deadlock detected	
4203	File is corrupt	
4204	Extended server edition error	
4205	Unable too access server file	
4206	Can't identify specified server	
4207	Bad user handle	
4208	Bad group handle	
4209	Invalid administration handle	
4210	Can't upddate user definition	
4211	Not enough server memory	
4212	Can't delete user definition	
4213	Login failed	
4214	Can't update group defintion	
4215	Can't delete group definition	
4216	Physical file name not specified	
4217	Invalid record length	
4218	File must be opened exclusively	
4219	Permission denied	
4220	Can't write .TAG file	
4221	Must copy record to identical structure	
4222	Destination file must be empty	
4223	Can't delete header file (.HDR)	
4224	No locks available	
4225	Can't delete .TAG file	
4226	Not in a transaction state	
4227	Already in a transaction state	
4228	The server is down	
4229	DBMS driver not supported	

DataFlex Error Code Listing

4230	Protocol not supported	
4231	Default login unsuccessful	
4232	No transaction processing allowed	
4235	Transaction aborted	
4236	Can't ABORT while in a transaction	
4237	Can't CHAIN while in a transaction	
4238	Can't RUNPROGRAM while in a transaction	
4239	Can't SYSTEM while in a transaction	
4240	Server cannot open a local data file	
4241	Maximum number of server logins exceeded	
4242	Can't lock record	
4243	Can't unlock record	
4244	Can't copy database	
4245	Server communication error	
4246	Can't delete administrative user ID	
4247	Can't delete administrative group ID	
4248	Invalid DSE server serial number	
4249	Not a DataFlex server edition License	
4250	Must be administrative user (ADMIN)	
4251	Can't lock file	
4252	Error in transaction log	
4253	API not installed	
4254	Can't creat file	
4255	Can't load DLL	
4256	Restructure OK, check file for error	
4257	Can't open filelist	
4258	Invalid block zero full	
4259	Error sorting: Bad data	
4260	Error sorting: Bad index number	
4261	Maximum record length exceeded	
4262	Unable to access index file	
4263	Header not damaged	
4264	Header integrity checking disabled	
4265	Unable to open file	

DataFlex Error Code Listing

4266	Unable to read header of datafile	
4267	Invalid index number	
4268	Duplicate field name	
4269	Not a valid file definition	
4270	Error reading file	
4271	Can't open immediate file	
4272	Can't close immediate file	
4273	Immediate file not opened	
4274	Error reading sequential file	
4275	Error writing to sequential file	
4276	Missing value	
4277	Invalid immediate file keyword	
4278	Invalid immediate file value	
4279	Invalid immediate file sequence	
4280	Invalid immediate file field	
4281	Invalid immediate file index	
4282	Cannot logout with open files	
4283	Unable to write .FD file	
4284	Max index key length exceeded	
4285	Attempt to access unsupported attribute	
4286	Illegal attribute value	
4287	No index specified	
4288	File not on Netware TTS enabled server	
4289	Can't access database in callback object	

DataFlex Utility Run Time Status

NUMBERS 8000 ON

NUMBER	DESCRIPTION	
8193	Bad data dictionary handle	
8194	Bad file handle	
8195	Bad field handle	
8196	Bad flex filenumber	
8197	Data dictionary is full	
8198	Related file not open	
8199	Files lot already in use	
8200	All data dictionary entries used	
8201	Data dictionary not initialized	
8203	Invalid record length	
8204	Duplicate field name	
8205	Blank field name	
8206	First character not alphanumeric	
8207	Invalid field length	
8208	Invalid whole digits	
8209	Invalid decimals	
8210	Numeric field zero length	
8211	Too many fields	
8212	Relationship does not exist	
8213	Field already related	
8214	No relatable fields	
8215	Invalid index number	
8216	Bad file number	
8217	Bad field number	
8218	Invalid field type	
8219	Field name adjusted	
8220	Invalid date length	
8221	Invalid overlap	
8222	Record length changed	
8223	Can't write .TAG file	

DataFlex Error Code Listing

8224	Can't delete index file	
8225	Can't create index file	
8226	No main index edit possible	
8227	Invalid .DEF filename	
8228	Can't write .FD file	
8229	Can't write index name file	
8230	Can't delete data file	
8231	Syntax	
8232	Option already specified	
8233	Bad command line parameter	
8234	Index field count exceeded	
8235	Sort stack overflow	
8236	Sort buffer in use	
8237	Duplicate records in sort file	
8238	Block zero is full	
8239	DFRUN not found	
8240	Missing END in command file	
8241	Index already selected	
8242	Bad option combination	
8243	No files specified	
8244	Bad data in file	
8245	Error writing to .BAD file	
8246	Sort read error	
8247	Sort write error	
8248	.LOG file error	
8249	Can't open .DEF file	
8250	Not a valid .DEF	
8251	ALL already specified	
8252	File number must be first	
8253	Sort option conflict	
8254	Can't close .VLD file	
8255	Conflicting indexes	
8256	Index specified twice	
8257	No indexes specified	

DataFlex Error Code Listing

8258	No fields specified	
8259	Invalid status option	
8260	Duplicate record option twice	
8261	Invalid duplicate record option	
8262	Bad record option twice	
8263	Specify file first	
8264	Bad index number	
8265	Invalid bad data option	
8266	No index specified	
8267	File already specified	
8268	Invalid index mode	
8269	Invalid use of option	
8270	Can't delete .VLD file	
8271	Too many item groups	
8272	Can't open sequential image text	
8273	Not custom compressed	
8274	File in use	
8275	Error writing .BAD file	
8276	No index to delete	
8277	No index to create	
8278	No fiels specified	
8279	Bad or duplicate data detected	
8280	Index key length too long	
8281	Big fields not allowed in index	
8282	Can't delete .HDR file	
8283	Unable to read file	
8284	Unknown Error Text	
8285	Immediate file not opened	
8286	Error reading sequential file	
8287	Error writing sequential file	
8288	Missing value
