

## **SEAGATE CRYSTAL REPORTS – REPORT WRITER**

**Seagate Crystal Reports is an award winning report writing tool, with over 3 million installed users world wide. It combines presentation quality reporting with an easy to use, yet extremely powerful report writer.**

Report experts guide you painlessly through creating your own reports, where you have total design control. You can change fonts and colours, layouts, logo's and pictures. Like visual representations? Let Crystal graph your report results in over eight different ways.

Through the use of arrow's Integrated Data Dictionaries, you don't need to set up complex formulas or selection criteria. Just drag and drop fields from Arrow onto the report and then fine-tune the presentation. A design and a report preview window let you see exactly what the report will look like.

### **FEATURES**

- Data Dictionaries mean the data is at your fingertips.
- Presentation Quality Reporting.
- Report Experts lead you step by step to create perfect reports.
- Full control over formatting, colours and layouts.
- Automatic graphing of report information in a multitude of styles.
